### "LABOR OMNIA VINCIT."

A Lecture Delivered to the Teachers of Bearer County, August 16, 1895, by REV. P. D. MUNSELL.

"Labor Omnia Vincet" is the motto of Oklahoma. Whether the mind that first conceived it was inspired by the spirit of hour, I sm unable to say. Such might well acteristic spirit of our further efforts. reiterated time and again from the lecture and compell you to give your first and beet the past and which you are showing in the reiterated time and again from the lecture and compell you to give your first and beet these few short weeks of review, charsuffited, in a political sense, that divine poused. prophecy which says that a nation shall be "Labor Omnia Vincet. I shall by tional standard among all classes and my effort has not been in vain if I shall by tional standard among all classes and thus lecture succeed in giving any one of in all parts of the county. Give it your taken her place, among her sister common- lence without word taste for solid, profitable reading. Keep wealths, with those in the van, as a powerful factor of the government. She occupies this does not work is a usurper of the fruit of acquainted with the doings of the world sround you by reading the newscher's tori, "The nightest though that world sround you by reading the newschesings not wholly by reason of any outboundries; but, for the greater part, because of her own indomitable push and energy, uncompromising real, and unturing industry. indicidual inhabitants, and I say this may well have been the inspiration that suggested "Labor Omnia Vincet" as our motto.

He that as it may I cannot help but believe the reverse to be true, that the motto has been and is the inspiration of the excelling, persevering, conquering spirit that distinguishes Oktahoma's sons. Believing and acting upon this solid, unshaken, timedemonstrated law that work accomplishes everything, they have laid hold of the plowshare and grasped the pen and opened the text-book, and, by a persistant fighting away on these lines with a Grant's determination, they have literally transformed in the short space of a few years the wigwam villages of the red-men into fourishing cities and the cured. Jewels are not found scattered pro beak barren praries into beautiful, growing farms, "Labor Omnia Vincet;" and recagaining this fact they have gone forth, not with any experimental view, but with full assurance of and dependence in the inevitable result, to steadfastly work out a practical and visable demonstration; and Oklaboms, as she stands to-day, politically, socially, religiously, and best of all educationally, is that demoustration of this great

reached as our civic and religious and other relations combine to consuce it. Our reseed of truth, which according to God's plan grows slowly. But our educational work ins had no fetters to bind its step, nothing labors. to retard its rapid advancement to the practical and praise worthy level on which re to-day find it. Along this line we have ciplining the rising generation for the pomethods and pursue the best possible advantages; and though we may still feel that educational standard, yet it is not without pride that we point to the progress we have already made in so short a period of history.

But this has not been accomplished without work-indeed. labot, persistent, hard, your mind for inspection any man of power energetic, aggressive, is the secret of this accomplishment. It is the foundation upon They are all workers, and each by his wellwhich our educational structure has been rempered, well-sharpened chisel of convicreared, and it is this that shall lay the bat. tion applied to the granite of universal clements of perfection upon her high walls, of unremitting toils has chipped out for and hoist the minarcts of effective beauty and himself a niche in the polished stairway of simplicity upon her lufty towers, whose sub- the world's beautiful temple of honor. lime pinnacles of power shall be seen far and bor is back of all achievement. All civilizanear and whose shadow of influence shall be depends the future prosperity and stability felt in remote places. Such is, and shall be, of our honored country, and the man or the demostration of this great underlying law woman that believes this and is not afraid of of progress from an educational standpoint in work can be culogized as the most toyal of Oklahoma, by Oklahoma's educators.

Give it your madey has grown to full stature in less recognition of the truth and importance of best endeavers and your most honest than a decade. In a few short years she has these words, "Labor Omnia Vincet." Labor labors. Keep abreast with the advanced

side aid, or influence foreign to her own meaning thought that forces itself in upon in the cause of education. Such a plan our minds is the parasitical tendency of a large per cent of the men of to-day. It is a dhered to with all one's powers will deplorable fact that the bive of the body bolitic is swarmed with dranes, feeding and and establish in his experience the truth characteristics noticably prevalent in her living upon the store to which they have of this great law of human progress, not contributed; and though perhaps they should be dealt with as the common drone of the bive, yet, in a sense, they should be killed off to give room to the industrious. I am perhaps a little severe in my opinion, but I will stand forever upon the belief that he who is willing shall not lack opportunity. Work! Why, dear friends, God is a worker, "He is not an infinite quiescence. but rather an infinite activity. Jesus said. "My Father worketh hitherto, and I work, and a man, true to his origin and true to himself, is a worker, for he is made in the

image and likeness of God. Work is the magical key that unlocks the treasuries of heaven and earth. Everything of any value is under this combination of four letters, w-o-r-k, and it not only require a knowledge of the comb nation but a working it out before those valuables can be semiscously about, but in the secret, silent bed rock of earth, and he who would possess them must work for them. Labor is the only route to prosperity and it is more or less a burdensome one. It is full of discouragements, full of snares, full of disappointments. There is no easy, roundabout way to success. He who would gain the prize must

"Bear the toil, endure the pain." "Work is the organic condition of things natural and supermutural. It is God's thought and law forever stamped on the From an educational standpoint, we can by work is the great world thought touching view and review this demostration with much us at every vital point. By work the body enthusing interest, for in this methinks per-baps it is the clearest. In respect to our briars, the mind from the curse of thorns and briars, the mind from the thraildom of ignointernal political advancement, our govern- rance." Emancipation from the slavery of they having been committed for conmental policy, it necessarily requires much idleness with its distressing consequences of tempt of court. President Debs' term time and study and experiment before we can arrive at those methods and those laws which are best adapted to our peculiar needs. The highest social standard can only be tained. In fact, idleness never gave un ounce of impetus to the world. The great old position in Tammany Hall, as chairest men of the world have been without exception the greatest world-toilers, ligious side can only be stimulated by the great "Legion of Hanor" embraces men who Croker is now in England, and it is faithful planting and cultivating the divine have merited this distinction by their hard work. The marks of nobility in a man are his fucrowed brow and calloused hands, beautiful memorials of the triumphs of his

What then dear friends, is the inthe future, til. they shall equal those of our The inspiration it imparts is this-that ing the most public profession of life? if we put our shoulders to the wheel it have you to understand me to compliment will move. There is a great reformour prospects. Though only an adopted ation to be brought about in Beaver county in the near future; but it will only be by hard work on the part of shilly and plack that have enabled us to the reformers. The chains of ignorance that one day bound our ankles have been broken asunder, and a ray of engressorer which we may look with interested lightment begins to spread its conquering force smong us and free us from this thraidom; but there are other chains yet to be broken; we are not yet free. There is greater liberty yet to be paracterize your future work of training the taste for solid, profitable reading Keep lead him to a sure and worthy victory "Labor Omnia Vincet."

Take in conclusion one verse from Longfellow's famous poem-

"Let us then be up and doing, With a heart for any fate. Still achieving, still pursuing.

And turn it around-labor to learnis just as good one way as the other

Learn to labor, and to wait." The Lord inspire us all with a noble

### WASHINGTON LETTER.

From our regular correspondent.

WASHINGTON, D. C., Aug. 23, 1895 Ex-Governor James E. Campbell has been nominated for Governor of Ohio for the third time, and he will be called upon to lead the Democratic party this fall. The honor was fairly forced upon him against his protest, he being inter rupted during a speech nominating Judge Hiram D. Peck of Cincinnati. and he was nominated by acclamation.

All of the directors of the American Railway Union except President Debs have been discharged from confinement. due to the recent big strike at Chicago,

ker is slated for re-appointment to his man of the finance committee. Mr. said the place will not be filled until he returns. It is not unlikely that Tams many will awaken and in the course of some time assume its former leadership, but hardly, we think, will it be as strong

Politics in Kentucky are assuming a very peculiar situation. The latest rumor is that Secretary of the Treasury Carlisle has been asked to enter the Senstorial race against Blackburn. If such a complication should arise then the Republicans take on a fresh coat and point to Judge Harian as a possible Senator from their ranks to the next Senate. This is all very interesting, for Judge Harlan was, and is to-day, a great war chief of the Kentucky Republicans. He was a power in the old Grant day, and at the Cincinnati convention, when Blaine went down, Harlan fed the forces of Bristow while that able Kentuckian had a show to succeed. Las To-day all of Judge Harlan's old strength and prestige still live in Kentucky. And if in the general mix-up of the Democracy the Republicans should work through and win, the year of '96 is likely to hear a vast deal of the big tax ruling is somewhat of a card in his favor. More developments will follow

"Valkyrie 111" the English boat which is to do the honors for Great Britain in the coming tace with the \$25.00. for 160 acres. American "Defender" has arrived in port at New York. Of course the ventursome vessel hopes to carry home the cup as a trophy of her cruise, but it is the wish of every American that her

hopes will be blasted. The Vigilant and Defender both went. to meet the English Yacht. The British Racer is almost as big as an ocean liner. Her beats is immense and she shows tremendous length. She was 22 days making the passage.

The Philadelphia Mint yesterday received another shipment of \$10,000,000 in gold from the New York assay office. It was all in the form of bullion. The mint is coining mostly subsidiary coins just now, there being more demand for them then arything else. Quarter and balf dollars pieces are being turned out cluded to night convinces me; by it en- desire to attain its loftjest ends. It is souvenir medals has been parked roady for shipment.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it expecially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as

sure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the howels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve large which is a timelies.

cains receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize,
the importance of this fact, but treat the
organ itself instead of the cause of the trouble
The noted specialist, Franklin Milles, M. D.,
LL. B., nas given the greater part of his life
to the study of this subject, and the principal
discoveries concerning it are due to his efforts.

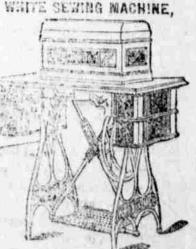

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the
principle that all nervous and many other
difficulties originate from disorders of the
nerve centers. Its wonderful success in our ing
these disorders is tostified to by thousands in
every part of the land.

Restorative Nervine cures sleeplessness,
nervous prostration, dizzness, hysteria, sexual debility, St. Vitus dance, epilepsy, cic. It
is free from opiates or dangerous drugs. It
is soid on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical
